ACCREDITED TEXAS-BRED RULES

Effective January 1, 2004

EMBRYO TRANSFERS

For an embryo transfer foal to be eligible for Texas Accreditation, it must be the genetic offspring of an ATB Broodmare and meet all accreditation requirements. The RECIPIENT MARE must be permanently identified (papered, branded or tattooed) and permanently domiciled in Texas.

MULTIPLE FOALS

Multiple foals conceived in the same year by a single broodmare are eligible for accreditation provided the mare was bred to an ATB stallion at least every other breeding and all other requirements for accreditation are satisfied. TQHA may require a report of mares bred be submitted to the TQHA to verify eligibility for accreditation.

If the multiple foals are the result of a transferred embryo or oocyte process, all foals sired by an ATB stallion are eligible for accreditation. If any of the foals were sired by a non-ATB stallion, only one of the foals sired by a non-ATB stallion may be accredited. The owner of the ATB broodmare at the time of conception for foals sired by a non accredited stallion must notify TQHA and select which foal is to be accredited and is considered the breeder for purposes of breeder awards. In such instance, the breeder must submit to TQHA a notarized **TQHA Foal Authorization Form** stating which foal shall be eligible for Texas Accreditation and this form must be submitted on or before August 15 of the weanling year. In the event the breeder does not or cannot complete the **TQHA Foal Authorization Form**, the first foal submitted for Texas Accreditation shall be considered the only foal eligible.

An ATB broodmare that produces multiple foals in a single year using the transferred embryo or oocyte process must submit to TQHA the **Multiple Embryo Transfer Report**. The report must be submitted on or before December 31 of the year of conception.
